

International Public Tender for High Resolution Surveys

Israel Natural Gas Lines Ltd. (the "**Company**"), an Israeli fully owned governmental company, hereby invites Israeli and non-Israeli bidders to submit Bids for the performance of Surveys of its Offshore Line Gas Transmission System (the "**Tender**").

The Surveys shall include High Resolution Digital Sidescan Sonar (SSS), Multibeam Echo-Sounder (MBES) and pipeline location and depth surveys (pipeline tracking) and shall also provide a continuous video of the Offshore System and photographs of specific locations.

The contract period, including the Company Option Period is 8 years. The Company is entitled, at its sole discretion, to order the execution of two additional Surveys during the Company Option Period.

The selection of the winning bidder from the bidders that will meet the threshold requirements and will receive the minimum quality score, shall be made on the basis of the highest final score, consisting of the quality score (30%) and the price score (70%).

Threshold Requirements

(A) Bidder's Structure

1. The bidder must be an Israeli or a non-Israeli entity duly organized and validly existing under the laws of the jurisdiction in which it was organized.

(B) Professional Experience & Capabilities

2. The bidder has successfully executed, as a prime contractor, as of 1.1.2013 until the last submission date, at least 2 surveys for offshore pipelines in waters reaching at least 60 meters in depth, that included the surveys set forth in clause 12.2 of the Tender.

(C) Key Personnel

3. The bidder must present the following essential key personnel that shall be employed by it (as an employee or as a freelancer) in the management and execution of the Surveys, having the proper qualifications and adequate experience (but no less than the minimum requirements specified in clause 12.3 of the Tender):
 - 3.1. Project Manager;
 - 3.2. Senior Data Processor.

(D) Equipment

4. The Bidder owns or has other contractual right of use in all the equipment required for the execution of the Survey, including at least:
 - 4.1. A suitable vessel, to execute the Surveys, that complies with the requirements set in the Tender.
 - 4.2. An IROV that complies with the requirements set in the Tender or any other tool that complies with the requirements set therein.

In support of its compliance with the requirements set forth in Clauses 4.1 and 4.2 above, a bidder may present a valid contract with a sub-contractor that owns the required equipment and undertakes to provide it to the contractor throughout the period of Surveys.

(E) General Requirements

5. The bidder was not declared under the Act for Fighting Iran's Nuclear Plan, 2012, as an entity with which Israeli entities may not conduct business.
6. If the bidder is an Israeli Bidder or an Israeli Resident (as defined in the Income Tax Act), it shall hold and submit all the approvals required pursuant to the Public Entities Transactions Law, 1976.
